

## Public and private spaces and activities

Do you think this is a **public behaviour/activity** that we could observe/record and use as data? Yes or no? Are there any constraints or additional considerations?

- |   |          |
|---|----------|
| 1. Counting the number of people who bought sandwiches at DHT café              | YES / NO |
| 2. Filming students serving themselves and eating at Pollock Halls              | YES / NO |
| 3. Filming people walking through the farmer's market                           | YES / NO |
| 4. Observing and taking notes on shopper behaviour inside of a grocery store    | YES / NO |
| 5. Wall posts and comments in an Edinburgh food sharing Facebook group          | YES / NO |
| 6. What people say at a face-to-face meeting of an Edinburgh food sharing group | YES / NO |
